State Street Short Term Investment (STIF) Fund (the "Fund") represents units of ownership in the State Street Short Term Investment Non Lending Series Fund.

The Fund seeks to offer safety of principal and a competitive yield to maximize current income.

Investment Objective

The Fund seeks to provide safety of principal, a high level of liquidity and a competitive yield.

The Fund is not a "money market fund" registered with the U.S. Securities and Exchange Commission ("SEC"), and is not subject to the various rules and limitations that apply to such funds. Although a Fund may seek to maintain a stable or constant net asset value, there can be no assurance that it will do so.

Investment Strategy

The Fund invests principally in high quality, short-term securities and other instruments including, but not limited to, U.S. Treasury bills, notes and bonds, other obligations issued or guaranteed as to principal or interest by the U.S. Government, its agencies or instrumentalities, corporate debt obligations (including commercial paper of U.S. and foreign companies), instruments of U.S. and foreign banks, including time deposits (including Eurodollar Time Deposits), certificates of deposit (including Eurodollar and Yankee Certificates of Deposit) and banker's acceptances, supranational and sovereign debt obligations (including obligations of foreign government subdivisions), mortgage-backed and asset-backed securities, repurchase agreements, funding agreements, money market mutual funds subject to SEC Rule 2a-7, and other investment pools that SSGA determines to be consistent with the Fund's investment objective. All securities held by the Fund are U.S. dollar denominated. The Fund may concentrate its investments in one or more industries or groups of industries, such as investments in obligations of U.S. or non-U.S. banks.

Investments made by the Fund may satisfy some, but not necessarily all, of the quality, maturity, liquidity, and diversification requirements set forth in Rule 2a-7 under the U.S. Investment Company Act of 1940. For example, the dollar-weighted average maturity and weighted average life of the Fund will not normally exceed 60 days and 120 days, respectively, and the maximum expected average time to receipt of principal of any single security purchased by the Fund will not normally exceed 397 days. The Fund will not invest in a security or other investment unless SSGA determines at the time of investment that it presents minimal credit risk. The Fund is not required to comply with the requirements of Rule 2a-7 and thus, does not incorporate all of the requirements of Rule 2a-7, such as, for example, requirements as to board reporting, certain periodic testing requirements, and requirements for certain reports to the SEC, as well as certain substantive limitations on investments contained in Rule 2a-7. The returns are provided in accordance with the description of the Fund's total expense ratio information that can be found on the last page under the Fee Disclosure section. All returns greater than 1 year are annualized. **Past performance is not a guarantee of future results.** Current performance may be lower or higher than the performance shown above. The returns are gross of the investment management fee, which is assessed outside the Fund. You should contact your Plan Administrator for a complete description of the fees and expenses, including the investment management fee. Fund returns reflect all items of income, gain and loss and the reinvestment of dividends and other income and are calculated in US dollars. Index returns are unmanaged and do not reflect the deduction of any fees or expenses. Index returns reflect all items of income, gain and loss and the reinvestment of dividends and other income.

Investment Strategy (Continued)

The Fund will not typically engage in transactions involving derivatives, although it may purchase securities in which options or other derivatives are embedded. The Fund would not purchase those securities for purposes of creating what SSGA considers to be investment leverage. (SSGA generally will determine whether an investment has the effect of creating investment leverage by evaluating the effect of the investment on the exposure and risk profile of the Fund as a whole.)

The Fund is expected typically to issue and redeem shares at a "book value" of \$1 per share. The Fund is not a registered money market fund, and may continue to issue and redeem shares at book value under circumstances where a registered money market fund might not, such as when the variation between book value per share and market value per share exceed levels permissible for a registered money market fund to issue and redeem shares at \$1 per share. SSGA may at any time (without notice to investors) cause the Fund to issue and redeem shares at their market value, rather than their book value.

Key Facts

- Is actively managed
- May invest in other investment pools, including those managed by SSGA and its affiliates
- Will not use investment leverage
- Will not sell securities short
- Will not lend its portfolio securities
- May enter into repurchase agreements

The Fund is a collective investment trust and is not FDIC insured, nor is it an obligation or deposit of, or guaranteed by State Street Corporation, SSGA or its affiliates.

The ICE BofA 3-Month U.S. Treasury Bill Index is comprised of a single issue purchased at the beginning of the month and held for a full month. At the end of the month that issue is sold and rolled into a newly selected issue. The issue selected at each month-end rebalancing is the outstanding Treasury Bill that matures closest to, but not beyond, three months from the rebalancing date. To qualify for selection, an issue must have settled on or before the month-end rebalancing date. While the index will often hold the Treasury Bill issued at the most recent 3-month auction, it is also possible for a seasoned 6-month Bill to be selected.

Important Message About Risk

For institutional / professional investors use only.

Investing involves risk including the risk of loss of principal. Bonds generally present less short-term risk and volatility than stocks, but are subject to: interest rate risk (as interest rates rise, bond prices usually fall); issuer default risk; issuer credit risk; liquidity risk; and inflation risk. These effects are usually more pronounced for longer-term securities. Any fixed income security sold or redeemed prior to maturity may be subject to a substantial gain or loss. Investing in foreign domiciled securities may involve an increased risk of capital loss from unfavorable fluctuation in currency values, withholding taxes, differences in generally accepted accounting principles and economic or political instability in other nations. In addition, the Fund may use derivative instruments which may involve risks such as potential illiquidity of the markets and additional risk of loss of principal.

Risk Management

SSGA monitors credit and interest rate risk on a continuous basis. The Fund will be highly diversified and will not invest more than 5% of its total assets in obligations of any one issuer, other than obligations of the U.S. Government or its agencies or obligations or other investment pools in which it may invest.

About SSGA

The Fund is managed by State Street Global Advisors Trust Company, a wholly owned subsidiary of State Street Bank and Trust Company, and a global leader in providing investment management solutions to clients worldwide. To learn more about SSGA, visit our web site at ssga.com.

Fee Disclosure

The Fund seeks to achieve its investment objective by making direct investments in securities or by making investments in other investment funds, including those managed by SSGA and its affiliates ("SSGA Funds"). The Fund indirectly bears a proportional share of the fees and expenses of the SSGA Funds in which the Fund invests ("Indirect Expenses") which may include, among others, investment management, audit, custody, administration, index and legal fees and transaction costs associated with the SSGA Funds. Additionally, the Fund incurs indirect fees and expenses ("Direct Expenses") which may include, among others, custody, audit, administration, index and legal fees and transaction costs. The investment management fee for the Fund is assessed outside the Fund and is not included as part of the Direct Expenses. Please consult the fund declaration of the Fund for more information about the fees associated with the Fund.

Fees and expenses are only one of several factors that participants and beneficiaries should consider when making investment decisions.
